Reference: Year-end Report (10/01/2013 - 12/31/2013)

Dear Ms. Mongeon:

This submission is in response to your review of the above referenced report and letter dated March 28, 2014.

1. As indicated on the year-end report, the second \$ 5,000 contribution received from the International Brotherhood of Electrical Workers Political Action Committee in December 2013 was refunded during the first quarter of 2014 when this Committee received confirmation that the contribution was not designated incorrectly due to a clerical mistake.

2. An amended report is being filed to correct the designation on one of the partnership records from Kozak and Salina LLC. Due to a typographical error, this contribution was coded in the Committee's database as C for Convention instead of G for General. The contribution from the individual member of the LLC whose personal funds were contributed was reported correctly as designated to the General election.

Please note that your letter was not received by the Committee either by mail to the Committee's address or by email to the Treasurer's email address. The Committee has confirmed that this email address is disclosed correctly on the Committee's Statement of Organization. A review of email communications received from the FEC in February, March and April 2014 shows that various other notices and filing confirmations were received from the FEC during this period, but not an email notifying that this letter had been placed on the public record and required a response by the due date. Recently the letter was noticed by a member of the staff on the FEC's website and this response is being promptly filed.
